INTERNSHIP	
Aztech technology (23 dec- 20 mar)	<ul style="list-style-type: none">▪ AZTECH TECHNOLOGY PVT LTD. Developed a project on online voting management system which works as an online platform for casting votes in an online mode . I have developed this project with strong front end and backend skills, I have done this project with .net framework ,for the language I have used c#, with MySQL database for the backend and html, css for the frontend. The main aim of this project is to minimize the problems of the citizens as they will be able to caste their votes as most of the people may not be able to caste the votes because of the reasons of not be available on the voting booths ,or some of them may be far away so they would not able to do so. In this way the people would be able to caste the votes from any locations ,and they do not to travel for that.
